New publication: "The Jade Garden"

As you walk through the garden, you may see some signs denoting plants featured in our new book "The Jade Garden - New and Notable Plants from Asia". This is a landmark publication by three of UBC Botanical Garden and Centre for Plant Research's curators: Peter Wharton, Brent Hine and Douglas Justice. Published in June 2005 by Timber Press, "The Jade Garden" illustrates one hundred and fifty of the most fascinating, yet little-known, ornamental trees, shrubs, and perennials from the "green mantle" of Asia, which can all be seen in the garden. "The Jade Garden" is available now from the Shop in the Garden.

Wreath Making

Yes, it's that time of year again! The holidays are right around the corner - here's your opportunity to sign up and learn how to make your very own Holiday Wreath.

Guided by our talented and experienced experts David Tarrant and Judy Newton, you will learn tips and techniques while making your very own natural Holiday creation. Welcome your friends and relatives with a beautiful hand-made wreath on your door for the holidays.

Shop in the Garden and Plant Centre

The Shop showcases a diverse selection of gardening and botanical books, accessories, gifts and dried flower arrangements. The Plant Centre offers seasonal choice selections of perennials, shrubs and vines. Gardeners seeking hard-to-find or unusual plants can also find rare seeds from plants in the UBC Botanical Garden. All shop proceeds support research, education and garden improvements.
